

Booking Form – Permaculture Design Course

High Heathercombe Centre, Heathercombe Brake, Manaton,
Newton Abbot, Devon TQ13 9XE

Saturday 4th to Saturday 18th November 2017

Thank you for your enquiry about our Permaculture Design Course. Please complete this booking form as fully as possible. Further details such as directions, and what to bring, will be sent to you with confirmation of your booking.

Introduction

This course is for anyone who believes that we need to find ways to care for ourselves, for each other and for the Earth. If you are looking to make a significant change in your life, then this will almost certainly help you. The design course provides you with a broad introduction to the applications of permaculture in a number of different situations.

Although permaculture is most commonly thought about in connection with gardening and farming, its principles, ethics and design methods can be adapted and used in each individual's own work, interests and home to bring about a more harmonious and sustainable lifestyle. Permaculture offers a perspective on all aspects of building a sustainable future. It encourages us to use our individual skills, knowledge and interests, whilst drawing on traditional wisdom, science and our innate ability to observe and learn from the world around us.

What you will learn

- What permaculture is and why it is particularly relevant to us today.
- How we can make cities and the countryside healthier and more productive places to be.
- How working with nature can help us to meet many of our needs, including food, water, and shelter. Some specifics:
 - Some simple techniques for caring for soil, water and wildlife.
 - Techniques for building eco-friendly and low impact homes and how to design them into the landscape to minimise both pollution and unnecessary work.
 - What really constitutes 'appropriate' technology.
- The permaculture design process, that guides you in getting from where you are to where you want to be, including:
 - Some effective, low-tech surveying tools to analyse and map a site.
 - How to make best use of space and slope in land-based permaculture designs.
 - How to apply the design process to both land-based and non-land-based systems.
- How to create win-win situations rather than trade-offs.
- How to achieve bountiful yields with a minimum of effort.
- And much, much more!

Ecological Design Solutions for a Sustainable Future

During the second half of the course you will be guided in groups through the design process, applying what you have learned, to produce an original design on the site. You will be able to take this experience away and apply it in creating further designs for your own home or garden.

The Teachers

Aranya Dip. Perm. Des. first came across permaculture back in the late 1980's, being fortunate enough to meet one of the first designers working in this country. He found the subject full of common sense ideas that immediately inspired him to apply the principles in his own life. During the 1990's he regularly lectured and debated on environmental issues in schools and colleges and in the media for a national campaigning group over a period of five years. He completed the 72 hour Design Course in 1996, and the [Diploma in Applied Permaculture Design](#) in 2003, after which he began to teach. This he discovered was something that made his heart sing, so he made it his main focus. Since 2004 he has taught nearly 80 two-week design courses, something he has no intention of stopping, feeling it a privilege to have the opportunity to teach *"something that can make a real difference in all our lives"*.

Aranya has been involved with the [Permaculture Association](#) in a variety of ways since 2000. He is excited about new ways in which permaculture thinking can help us, developing new courses using its principles to help design, amongst other things, for optimising our health, and creating ethical livelihoods. His popular book [Permaculture Design: a step-by-step Guide](#) was published in Spring 2012 and has already been reprinted a number of times. He's currently involved in co-ordinating a number of other projects, including writing a second book, about a subject he's especially fascinated by - 'Patterns in Permaculture Design'. Aranya's website: <http://www.learnpermaculture.com>

Klaudia van Gool Dip. Perm. Des. had an interest in growing things as long as she can remember and has incorporated Permaculture ideas for the last twenty, since accidentally picking up Bill Mollison's book in the library. She did the Sustainable Land Use and Permaculture Design Certificate at Ragmans Lane Farm with Patrick Whitefield in 2006 and completed her Diploma in Permaculture Design in January 2009. She has a degree in Environmental Science from University of Plymouth and has worked advising and training businesses on environmental improvements. The last few years she has become increasingly interested in wild foods and she is learning beekeeping. Klaudia's website: www.klaudia.co.uk

The Venue

The High Heathercombe Centre is situated at 1250 feet, high in the Dartmoor National Park, adjoining the open moor and surrounding Heathercombe woodlands. The Centre is run on a charitable basis by the High Heathercombe Trust and has been developing permaculture areas on site since 2009. It's purpose-built, in a beautiful setting, and will be accommodating us, in groups of up to three people, in each of six bunk bedrooms. There is a well-equipped kitchen and a comfortable sitting/dining room, with an open fire, as well as a large shower room, a washroom and two toilets. The adjacent Forest Room will be our main base during the course.

Ecological Design Solutions for a Sustainable Future

Attendance

We commit to delivering to you a diverse and comprehensive, positive educational experience. We ask you to commit to attend the whole course. We do however understand that exceptional circumstances may prevent this, in which case we ask that you notify us before the course starts of any time you anticipate being absent.

Course culture

We don't expect any previous knowledge and recognise that everyone has their own unique skills, knowledge and areas of interest to bring to the course. We use group work, discussions, videos, slide shows, observation, guided walks and practical activities as learning methods. We also visit projects where permaculture theory is being put into action.

Design courses are not just about imparting information, but also about showing you how to use it and feeling confident to do so. Empowerment is the essence of the course. We use practical and theoretical teaching methods to create a fun, lively and inclusive course. The course culminates in the main design activity that helps to consolidate all of the learning and shows you how to take permaculture back into your own home, life and community.

Accreditation

Attendance of most sessions, plus participation in the design activity is necessary for accreditation. On successful completion of the course, you will be awarded the British Permaculture Association's internationally-recognised 'Certificate in Permaculture Design'.

Dates and timings

The course will run from 5.00pm (please arrive by 4.00pm for a prompt start) on Saturday 4th Nov to 6.00pm on Saturday 18th November 2017. There will be a day off mid-course on Saturday 11th and a half day off each week, usually Tuesday afternoon in the first week and Wednesday morning in the second.

Sessions start each day at 9.00am and continue on until the dinner around 6.30pm. We also have a light session most evenings, often a slideshow or video, to reinforce the day's learning. We have an hour and a quarter for both lunch and dinner, plus tea breaks each morning and afternoon.

Cost

The full fee for this 90-hour course is £825

This fee includes tuition, all food, accommodation, site visits, handouts, digital resources, and Permaculture Association (Britain)'s certificate.

The concessionary rate is £595, available to those on low incomes / means-tested benefits but **limited to only four places**.

Non-residential rates (includes lunch and evening meal) are: **£725 full fee / £495 concessions**.

Ecological Design Solutions for a Sustainable Future

Booking

To reserve your place, complete the attached booking form as fully as possible and send together with a **deposit of £125** to our address below. Any **remaining balance is to be paid by 10th October 2017**. Please make deposit cheques payable to 'Aranya Gardens' and send with the attached booking form to our address below. Keep this part of the form to refer back to later. Alternatively please email your booking form to aranya@learnpermaculture.com and I can email you details to make a bank transfer.

Cancellation Policy

Your deposit of £125 is required to reserve your place, which we will hold for you until 4 weeks before the course start date, when any outstanding payment is due. This deposit is non-refundable unless it is necessary for us to cancel the course for any reason. Your place on the course is confirmed once full payment has been received.

The training date selected is only transferable if at least 14 days notice is given. Transfer fee is £25. Course must be taken within 12 months of the original booking and any difference in fees will need to be settled 4 weeks prior to the course start date. Payments are non-refundable for cancellations within the last 14 days before we start, unless we are able to fill your place.

Pre-course reading

We don't assume that you have done any previous reading before the beginning of the course. However, if you'd like to do some reading beforehand, in addition to [my own book](#), I really like Graham Bell's books; 'The Permaculture Way' and 'The Permaculture Garden'. There's enough in them to give you a good sense of what permaculture is about, but not too much to be daunting! You could ask your local library to get them in for you or buy them from the Green Shopping Catalogue at: www.greenshopping.co.uk. You will also have the opportunity to browse a wide selection of permaculture books during the course and order any you like at up to a 25% discount.

We look forward to meeting you on the course.

Best wishes,

Aranya

To secure your place, please print out the attached form and send along with your payment/deposit to:

Aranya, Learn Permaculture, Spring Cottage, Axmouth, Seaton, Devon EX12 4BE, England

For more information on booking or enquiries about the event's content or teaching:

Booking Form – Permaculture Design Course

High Heathercombe Centre, Heathercombe Brake, Manaton,
Newton Abbot, Devon TQ13 9XE

Saturday 4th to Saturday 18th November 2017

1) Your contact details and needs

PLEASE WRITE CLEARLY OR TYPE INTO THE BOXES BELOW

Full Name:	
Name by which you would like to be known:	
Please delete as appropriate (so we can allocate rooms):	Male / Female
Address (including postcode):	
Telephone No:	
Mobile No:	
Email:	
Emergency contact details while you are on the course: (name and phone number)	
Do you have any specific dietary needs? (N.B. The catering at Heathercombe is all vegetarian with a vegan option)	
Do you have any other needs? (e.g. mobility, learning difficulties)	

2) Your booking (please see cancellation policy above)

The fee for this 90-hour course is £825. The concessionary rate is £595 (limited to four places only).
Non-residential rates (includes lunch and evening meal) are: **£725 full fee / £495 concessions.**

A deposit of £125 is required to reserve your place; the **remaining balance is to be paid by 10th October 2017**. Please make deposit cheques payable to 'Aranya Gardens', and send them with this form to the address overleaf. Alternatively please email your booking form to aranya@learnpermaculture.com and ask for details to make a bank transfer.

Please fill in and tick as appropriate

- I am paying £_____ and have enclosed / am sending the full amount with my booking.
- I am paying £_____ and have enclosed a £125 deposit, paying the outstanding amount by 10th Oct 2017.
- I am applying for one of the concessionary places and I enclose proof of means tested benefit / low income (please check there is still one available before sending us your form).

Ecological Design Solutions for a Sustainable Future

3) How did you hear about the course? (Please state as precisely as possible so we can optimize publicity – if via the internet, please let us know the website if you can remember, thank you)

4) Your permaculture background:

Have you attended any other permaculture courses? Please state which one(s) and the tutor(s)

What other courses of a related nature have you attended and when (e.g. organic gardening, community building etc.)?

What other related knowledge/experience/skills do you have?

5) Travel and Resources:

How are you planning to travel to the course?

We will be connecting all participants via email several weeks before the course starts so that you can all contact each other and arrange lift share/requests/offers. Would you like to be included in this information?

Yes No

What other resources/skills might you be able to offer the group? (e.g. first aid, games, etc.)

6) Age Range (please tick) – to help us with room allocations

16 – 25 26 – 40 41 – 59 60 and above

7) Your expectations for the course

What are your reasons for joining the course? What do you hope to get out of it?
